**Lyric Sheet**

## **Chorus**

Wake up, Make up Monday, hold on, baby hold on

## **Verse 1**

Toss and turn about our fight on Saturday  
The ways I hurt you  
I said I don't care  
Stomping out like a children's pout  
But never really moving on

## **Verse 2**

Angry moments of tawdry promises,  
Empty arguments, so full of despair  
Got me down like a foolish clown  
I better wake up, yeah, wak up

## **Chorus**

## **Verse 3**

When I think about the way we ended it  
I'm not defending it,  
I really do care  
Hang on now and know I'll never go down  
That empty lonely road

## **Verse 4**

Give me chances I know I don't deserve  
Hit me and kick me, throw me to the ground  
Got caught up in this nightmare stuff  
But better wake up, yeah wake up

## **Chrous**

## **Bridge**

Think back now at times we laughed  
That we cried so hard that we both then knew it  
Our two hearts beating like one and the same  
Think back now at loving times that when it hurt so much but then we got through it  
Let's start it over again
